

Governor Parnell Signs HB 267 – May 28, 2012

Governor Sean Parnell signed House Bill 267 which allows the Alaska Real Estate Commission to designate a licensee to close down a real estate brokerage for medical reasons or violation of law if there is not a licensed broker available to perform the task; makes it clear that licensed assistants only may work for the brokerage in which they are licensed; and, permits real estate licensees to share a portion of their commission with a charity. The measure goes into effect July 1, 2012 and is backed by the Alaska Association of Realtors.
